March 30, 2009

Dear Valued Customers, Vendors and Friends;

West-Mark would like to take this opportunity to assure all our customers, vendors and friends that West-Mark Fire Apparatus is here to stay. West-Mark Fire Apparatus has been manufacturing Fire Apparatus for over 37 YEARS (since 1972). We look forward to the next 37 YEARS manufacturing the best Fire Apparatus in North America. West-Mark just returned from exhibiting at the 2009 Wildland Urban Interface show in Reno, Nevada. We continue to increase our customer base and produce high quality fire apparatus in our new, technically advanced, manufacturing facility in Atwater, CA. Malicious and damaging rumors of our demise could not be further from the truth! West-Mark has actually added sales and production staff. We look forward to your bid quotes and welcome tours of our state-of-the-art facility. Please feel free to contact Wayne Kindred or Scott Vincent at (800)-692-5844 if you have any questions.
