Elkhart Brass Announces Burton's Fire, Inc. as a Full Line Distributor

Elkhart Brass is pleased to announce we are expanding our current relationship with Burton's Fire, Inc. to a full line direct distributor for California and Nevada. Elkhart Brass will coordinate training with Burton's on the latest technology and products Elkhart manufactures allowing them to provide the latest in training, information and applications to their customers. We believe Burton's provides a unique perspective to the marketplace and are excited about the possibilities they provide.

Burton's Fire is a complete fire apparatus repair shop located in Modesto, CA and family owned. They have a strong relationship with Pierce Manufacturing and have been certified by Waterous as a Platinum Service Center. Burton's recently increased their number of sales representatives in an attempt to better serve California and Nevada.

Elkhart Brass is pleased to welcome Burton's Fire as a full line direct distributor as we continue to grow to better serve our customers.

About Elkhart Brass

Elkhart Brass Mfg. Co., Inc. is a leading manufacturer of high performance firefighting equipment. They have been owned and operated by the same family since they were founded in 1902. In addition to CAFS nozzles and the Intelligent CAF Selector Unibody valve controller, Elkhart Brass manufactures water cannons, firefighting nozzles, fireground appliances, foam eductors, apparatus valves and fittings, plus accessories for many of these components.

About Burton's Fire

Burton's Fire, Inc. was established in 1991 by brothers Ken and John Burton. Their 23,000 square foot facility specializes in pump rebuilding, foam system installations, chassis changeovers, truck modifications and refurbishments.
