

Safety Issue Type: Recalls

January 13 2021 NHTSA Campaign Number: 21V006000

Wireless Controller Sleep Mode Disabled

Inability to use the wireless remote controller may hinder the firefighting efforts, increasing the risk of injury.

NHTSA Campaign Number 21V006000

Manufacturer Pierce Manufacturing

Components EQUIPMENT

Potential Number of Units Affected 3

Summary

Pierce Manufacturing (Pierce) is recalling 2020 Arrow XT, Impel, and Enforcer vehicles equipped with battery-powered 3600 wireless remote controller units used to control the movement of electric firefighting monitors in firefighting vehicles. The monitor is used to direct the water stream and adjust the spray pattern. The wireless remote controller's sleep mode is disabled, and results in the batteries discharging faster than normal.

Remedy

Pierce will notify owners, and dealers will return the affected controllers to Akron Brass for a software update, free of charge. The recall is expected to begin February 1, 2021. Owners may contact Pierce customer service at 1-888-974-3723.

Notes

Owners may also contact the National Highway Traffic Safety Administration Vehicle Safety Hotline at 1-888-327-4236 (TTY 1-800-424-9153), or go to www.safercar.gov.
